Eight additional 25' extensions with breakouts are also offered.
Twofers are available.
A detailed cable inventory is obtainable upon request.

HOUSE SOUND SYSTEM:

Front of house sound gear:

Mixing Consol: Yamaha PM 5D RH V2

Main Speaker Configuration:

We have a new Adamson Spektrix line array system consisting of 12 Spektrix full range speakers and 2 Spektrix 15 degree on the bottom per side. They are powered by plm 10000Q lab.gruppen amps with internal lake processors.

Subs: 4 SB 1000Zr EAW dual 18" su-woofer speakers powered by plm 1000Q lab.gruppen amps with internal lake processors, plus 2 EAW SB180P speakers and 2 EAW 250P speakers, 1 each per side in sub-woofer alcove above front boxes powered by 2 Crest cks 1200 amps.

One (1) EAW Center Cluster contains: EAW SPEAKERS

- 3 – KF 650 Top Row
- 2 – KF 300 Bottom Row
- 1 – KF 330 Bottom Row

Front fills are 6 EAW JF80

(EAW MX 8750 processors and powered by Crest amps)

Multiple delay systems are used throughout the house at balcony fills (under and over) as well as lobby and backstage feeds. All signal routing for balcony, front fills, lobby and backstage processing is done with EAW processors. Front of the House mixing is done from mid-house mix position, rear of the orchestra level seating mix position, or from an enclosed sound control booth behind orchestra level seating.

House Auxiliary Processing

- 6 channels BSS OPAL FCS 966 Graphic EQ for FOH and foldback mixes
- 8 channels of DBX comps
- 8 channels of DBX gates
- 1 Lexicon PCM-81 multi effects processor
- 1 Yamaha SPX 990 multi effect processor
- 1 Tascam DA 45 HR DAT recorder by request
- 1 Marantz Dual Independent PMD 510 Cassette Recorder by request
- 1 Tascam CD-450 CD Player

Foldback to Stage from FOH

- 3 Ch. Of XTA GQ 600 EQ
- Crest Power amps (8 chs.)
- Patch Bay assignable speaker connect locations
- 4 EAW SM 200 passive monitor wedges
- 2 EAW LA 325 side/drum fills
